

CHESSE Co-op
WEBSITE CREATION - 5th-6th Grade
Course Overview

Teacher: Heather Newberry

Contact Info: 706-248-6428 (cell) / heather.newberry@gmail.com

Course Website: <http://www.heathernewberry.weebly.com>

Course Goals: By the end of this 6 week course, each of you should have a broader knowledge of “cyberspace” terminology and function and will have created your own personal website with the aid of a free and easy to use online website editor. Website design can be extremely complicated or super simple. We are definitely going to be leaning toward the simple side of web design for this class, but it should certainly whet your appetite to continue learning more on the subject if you so desire.

Requirements: A wireless internet capable laptop to be used during class. While we will devote four class periods to working on your website, there may be times when you will need to do some work at home. The complexity of your website is entirely up to you and the amount of effort you put into building it.

Schedule:

- *Week 1 – Web Basics, Terminology Overview, Elements of Design, Intro to Weebly
- *Week 2 – Your Website
- *Week 3 – Your Website
- *Week 4 – Your Website
- *Week 5 – Your Website
- *Week 6 – Website Presentations

** If you have access to a laptop, you will need it on these days. Please be willing to share with students who do not have their own laptop.*

Questions or concerns? Do not hesitate to call or e-mail me.

I am looking forward to a great class with you!

Heather Newberry
